Woodland Springs

Special guest in attendance were

Four, 5th grade students from Trinity Meadows Intermediate School, their teacher Mr. Cook, proud parents, Sal Espino, District 2 Councilman, and Vicki Truitt, State Representative District 98.

Robert Mohler explained about our new website www.north-fortworth-alliance.com

Colleen introduced the four students from Trinity Meadows Intermediate who have set a goal of including a pedestrian bridge across Alta Vista and Keller-Hicks Road in the upcoming road construction project. They determined the cost of the bridge to be \$100,000. The student stated they have started a student signed petition and so far have lots of support. The school principle stated "Supporting projects such as theses helps us to send positive civic and life-long lessons about the importance of contributing to something good for the community and world. In reality, those are the kinds of

bridges worth crossing.” Councilman Espino congratulated the students for being activity involved in this project and although he could not promise that they would get a bridge, but he said he would express their goal to the City. Colleen and Councilman Espino each presented students with a certificate of appreciation for their involvement.

- ✚ Shirley Gansser briefed members on city overall expenditures and provided members a handout of the 2009 City expenditures on debt issuance, bonds, etc.
- ✚ Colleen introduced Vicki Truitt, State Representative District 98. Vicki spoke regarding transportation and the fact that things will get worse instead of better unless the state acts now to make the corrections in regards to the gasoline tax.

Meeting was adjourned at 10:30 AM

Respectfully Submitted,

Robert Mohler,
Secretary, NFWA
